1. General

Contributed papers must be in English and should report previously unpublished works. The total length, including figures and references, is one A4 format page. The authors are responsible for the content and style of the contribution and no editing or retyping will be carried out by the Conference organisers. The accepted contributions will be reproduced without reduction or modification. Contributed papers which do not conform to the format described below may be rejected. Each abstract should be submitted separately in electronic form at the email address:

bioelectrics@bioelectrics2016.org

The submitted file must be **both** a Portable Document Format (.PDF) **and** a source file – either a LaTeX (.TEX) or Text File (.RTF or .DOC(X)). If you use equations in your abstract, we recommend to prepare the abstract in the LaTeX format.

All contributed papers will be refereed by the International Scientific Committee (ISC). Based on their scientific quality, they may be rejected. The ISC will also select a limited number of the accepted contributions for an oral presentation. A book of proceedings, containing abstracts of the invited talks, as well as all one page accepted abstracts, will be distributed to the participants on their arrival to the conference site.

Deadline for receipt of one page abstracts is 15th May, 2016!
